

OUR CITY DADS.

They Caution the Advocate

Bids for Macadamizing San Pablo Avenue

Are to be Readvertised For.

Two Very Lengthy and Important Ordinances Passed to Print—Electric Light Bills Are Not Paid.

Board of Trustees.

It was just 8:05 when President pro tem Richards called the meeting to order.

When the roll was called all members answered present except President Rickard and Trustee Durrell who are absent on leave. The minutes of the last meeting were read and approved.

The Finance Committee reported as follows:

BILLS.

Sunset Telephone Co.....	1 50
M. Redding Cleghens.....	24 00

Martin moved that the sewer bonds that have not been numbered be numbered.

The President of the Board was instructed to bring in a report of the \$60 bill of the Advocate.

Bills for \$81.30 and \$78.90 for the grading and macadamizing of Shattuck avenue were acted upon by the full Board and the bills were ordered paid.

The bill for printing the affidavits by the GAZETTE Publishing Company, which was laid over from last meeting was disallowed.

Trustee Martin did not like the way the books of the town were kept and he was appointed a committee of one to originate a new plan and report the result of his work at the next meeting.

The matter of the Advocate collecting \$60 for work not furnished was brought up and it was the sense of the Board that it was a case of sharp practice on the part of the Advocate people but that it had taught the Board a good lesson and that hereafter the officer who signed a bill as correct would have to pay it himself if the goods were not on hand. The Board did not exactly tender the GAZETTE a vote of thanks for its expose, but it could be readily seen that the members felt that way.

Trustee Martin moved that the vouchers of the Electric Light Committee be referred back for correction. Trustee Hoff was unwilling that the bill should be paid because the lights were not burning at all the times re-

quired, and because the power was not up to the contract of 2000 candle power.

Trustee Martin said that the company did not and could not furnish 2000 candle power lights. All they could do was to furnish commercial power which was from 800 to 1100 candle power. This has been a vexed question in all the cities in the United States and would remain so until a general understanding between the merchants and electrical men was had.

Trustee Gage said that the lights had not burned on the 9th, 10th or 11th of this month and he did not believe in paying for what the Board did not receive. The bill was referred back for correction.

The Electric Light Committee reported as follows:

REPORT OF THE ELECTRIC LIGHT COMMITTEE

To the Hon. Board of Trustees, town of Berkeley:—The Electric Light Committee ask for power to act in carrying out the changes in arc lighting as adopted at last meeting and also for such changes as may be adopted in the report.

We recommend that the light situated on corner Spring and Vine streets be removed and placed in the center of the intersection of Arch and Vine streets; also that the light situated on corner of Berryman and Walnut streets be removed and placed in the center of the intersection of Berryman and Shattuck avenue. Very truly yours, JNO. MARTIN C. HOFF.

The committee was empowered to carry out the work.

Trustee Gage stated that there was absolutely no protection for fire in North Berkeley, and the people of that section who all paid taxes and improved streets without grumbling, thought they should have protection. He had been offered a hose cart and 500 feet of hose, a little soiled but as good as new that had been used at the Midwinter Fair. Referred to the Fire and Water Committee.

President pro tem Richards reported that the Alameda Water company were now laying 6 inch mains on Shattuck and Ashby avenues, also that the hydrants were being put in. The president was to see the water company managers and enquire whether they would lay mains on San Pablo avenue for fire protection and street sprinkling.

The engineer made the following report:

REPORT OF TOWN ENGINEER.

To the Hon. Board of Trustees, town of Berkeley:—With regard to the district to be assessed for the construction of a storm sewer on Oxford street from College way south to Strawberry creek, which was referred to your engineer at your last meeting, I would recommend that the district declared to be benefitted by said work and to be assessed to pay the costs thereof be about the following, to wit: The district bounded north by a line 100 feet west of Shattuck avenue, south by a line 100 feet south of Center street and extending easterly from Oxford street the same distance as the district extends westerly.

I would also recommend that the street be graded at the same time. Respectfully submitted,

C. L. HUGGINS,
Town Engineer.

The attorney was instructed to draw up a resolution of intention for the storm sewer on Oxford street.

F. Munday and J. Lentz made application for a liquor license, the bonds were approved and the applications referred to the License Committee.

A communication was received from property owners on Deakin, Prince and Woolsey streets asking that they be sidewalked with four foot wooden sidewalks. Resolution of intention ordered drawn; also from property

owners on Walnut street between Cedar and College way asking that said street be guttered, graded, macadamized and curbed upon the district plan. Referred to the engineer to form a district; also from the property owners on Fourth street between Holyoke and Virginia asking permission to lay a sewer by private contract and the same was granted.

A petition was received from property owners on San Pablo avenue asking for an electric light on the corner of Channing way. Referred to Electric Light committee.

A protest was received from the property owners on Ninth street between Deleware and Virginia against the curbing and grading of said street. As the street needs grading very badly Trustee Hoff was appointed a committee of one to confer with the property owners and have them withdraw their protests.

A petition was received from property owners on Walnut street asking that they be allowed to grade and macadamize the same for one block by private contract. Granted.

A petition asking that a sewer be laid by private contract on Le Conte and Enclid avenues in the Scenic Park tract was granted.

A communication was received from property owners on Haste street, between Bowditch and College avenue, protesting against the laying of a sewer in that street as it had never been accepted by the town was overruled.

Gad Alwyn of Lorin notified the Board that sometime once he had paid to the Marshal \$135.56 as an assessment for the opening of Calais street, but it has never been opened and he either wanted it opened or he wanted his money back. The clerk was instructed to inform him that the matter was now in the courts, but would soon be decided.

A communication from property owners on Second Street was read, protesting against the removal of the electric light on the corner of Second and Bristol streets.

Samuel Heywood, who was present, addressed the Board upon the importance of the light at that point on account of the large amount of property located there.

Trustee Martin said that the committee intended putting an incandescent light on Second street, which would be more beneficial than the present arc light. The petition was ordered filed.

Mr. Heywood asked that the superintendent of streets examine the Fourth street sewer, which was in bad condition, and the superintendent of streets was instructed to do so.

R. H. Bosworth asked for a free license to peddle vegetables. Trustee Gage said that free licenses were too numerous and if a halt was not called, there would be no money in the treasury to run the town on. On motion the free license was denied.

The Peralta Hook and Ladder Company wanted a flush closet, sewer and water connections at their fire house, stating that \$10 worth of plumbing had been donated by Byron Underwood. The street superintendent was ordered to have the work done.

A hydrant was ordered placed on College avenue, between Bancroft way and Strawberry creek.

A communication in regard to putting in a fire alarm system was read as follows:

FOR AN ELECTRIC ALARM.

To J. W. Richards, Esq.—I will sell to the town of Berkeley 50 alarm boxes, two registering instruments, two 250 Ohm instruments, thirty gravity cells of battery sufficient to accommodate 25 miles of wire; will also erect and construct all the wires necessary to connect with the fifty alarms; will also enclose the alarms in a neat box with lock and key which could be placed on poles designated by your honorable

Board, for the sum of \$350.00. Will also provide two very large ringing heavy gongs for the fire houses for \$75 each. Battery for same paraphernalia. Cost if gongs are also used.

If the proposition is considered by your honorable body and adopted I would like the sum of \$200 deposited to my order to enable me to pay for the gongs.

I will promise reliable service, good instruments, and faithful and lasting work. If I do say it myself I do not think you could get anyone to put up lines and alarms who would act more honestly and faithfully than I will and the figures quoted are low, and not exorbitant.

I am very anxious to make an electrical record and would do my utmost by honest work and reliable lines to accomplish this end. I beg to remain sir, very respectfully yours,

WALTER FRANCIS SHELLEY.

The proposition was ordered placed on file, it being the general opinion that the town could not afford a fire alarm system at this time.

George Edwin Bayles filed his bond for a permit for house moving.

In the matter of macadamizing San Pablo avenue, the old contract was rescinded and the clerk was ordered to readvertise for the work.

In the matter of grading, macadamizing and sewerage Cedar street a resolution of intention was ordered drawn.

The ordinances which were passed to print in the GAZETTE last week were read and passed.

A warrant for \$6 was ordered drawn for the employ of men on the Fourth of July.

A resolution ordering the work of macadamizing Shattuck avenue from the south line of Dwight way to the south line of the town was adopted.

The Superintendent of Streets was authorized to supervise the cutting of trees by the employees of the Electric Light Company.

The Attorney was authorized to draw an ordinance fixing the fees for Justice of the Peace in connection with Messrs. Martin and Cripps.

Ordinance No.—providing a system for the assessment, levy and collection of all town taxes in Berkeley was passed to print.

Ordinance No.—regulating the plumbing and drainage of houses in Berkeley.

The following bids were received and were referred to the Engineer to report at the next meeting:

For macadamizing Ellsworth street, Oakland Paving Company, macadamizing 7 cents per cubic yard; guttering 9 1-2 cents per cubic yard.

For macadamizing Durant avenue, macadamizing 7 cents per cubic yard; guttering, 9 1-2 cents per cubic yard; crosswalks relaid per lineal foot, 75 cents.

Grading and curbing Durrant avenue, K. G. Easton, grading per cubic yard 32.9 cents; curbing per cubic yard, 9 cents.

W. J. Schmidt, grading per cubic yard, 23 cents; curbing 9 cents.

M. Heaffy, grading per cubic yard 27 cents; curbing per cubic yard, 8 3-4 cents.

There being no further business the Board adjourned.

Combined for Profit.

The newspaper route agents of Oakland have combined for profit. They call their organization the Alameda County Newspaper Route Agents Protective Association. When a customer of any member refuses to pay his paper bill he is "posted" and will not be supplied with any paper until he pays up. When a subscriber moves the fact will also be made known to all the members.

The first officers of the association are: President, H. Parratt; vice-president, W. T. Webb; secretary, E. A. Delamater; treasurer, H. Schroeder; executive committee, E. Besenthal, W. Fife, F. Lynch, P. Sorenson and H. V. Parratt.

James Everding has returned from Santa Cruz.

NEW BERKELEY.

Ashby Avenue to be Transposed

Into One of the Finest Driveways

On This Side of San Francisco.

The Officers of the Chosen Friends Installed—Mrs. Bruckman Receives a Handsome Jewel.

In the Future.

Residents of South Berkeley have been striving for some years to devise a plan whereby they could make their part of town more attractive.

The citizens have at last agreed upon a plan. It is proposed to convert Ashby avenue, the principal thoroughfare, into one of the most attractive driveways in the State. Some time ago the Trustees ordered the avenue graded, and it is now being macadamized according to the latest improved methods. When this is accomplished cement sidewalks will be laid and bordered with tropical trees.

Palms and umbrella trees will alternate every fifteen feet. As soon as the improvements are completed between Ashby avenue station and Telegraph avenue, an effort will be made to extend the street from the foothills to the bay. When the macadamizing of Shattuck avenue to Ashby avenue is completed, Berkeley will have a quadrangular drive by the way of Shattuck, Ashby and Telegraph avenues and Bancroft way unsurpassed in the county.

Installation and Presentation.

Berkeley Council No. 72, O. C. F. had their newly elected officers installed last evening by Grand Deputy Frank Gimbel. The officers were as follows:

Past Councilor, Mrs. M. A. Bruckmann; councilor, Mrs. M. D. Hadlin; vice councilor, Mrs. M. Jounk; secretary, H. T. Wright; Treasurer, F. Gimbel; prelate, P. H. Murphy; warden, Mrs. Erwin; guard, Mr. Barney Bruckmann; sentry, Mr. Charles Hadlin.

At the proper time Mrs. M. A. Bruckmann was presented with a beautiful gold past councilor badge. This is the second time she has been rewarded with honor by the Council.

Both Mr. and Mrs. Barney Bruckmann deserve much credit. They have been in office steadily for five years and always attended to their duties, working for the good of the order.

Mrs. Bruckmann feels very happy over the present of this beautiful jewel and says that her joy can be more easily imagined than described. Another thing, perhaps, that makes her feel more happy is that it was received about the fifteenth anniversary of her marriage, which occurred on the 26th

day of July 1880. The jewel will always be a precious remembrance.

The gold badge presented to Mrs. Bruckmann consists of a pin upon which the letters F. A. P. are placed in black enamel. Pendant from this, by two light chains, with seven links across at right angles, hangs a gold, seven-pointed star with the points in colors of the rainbow. On the obverse side is a wreath, in the center of which are joined hands and the figure 7 in monogram. On the reverse side of the pendant is a beautifully engraved the words "M. A. Bruckmann, presented by the Berkeley Council No. 72, Order of Chosen Friends, 1895."

Athletic Club.

About thirty members were at the Athletic Club meeting, called for organizing a wheelmen's annex to the club as the previous society was not properly organized, and declared all offices vacant. Mr. Mikkelsen was elected temporary chairman. On an election for captain there was a brisk fight between Putzker and Gompertz, the latter winning. Fred Wilkins was elected first lieutenant. Burt Price was elected second lieutenant. Charles L. Taber was elected first sergeant, and will act as secretary. Frank McClain was elected bugler and Davis was elected color bearer and custodian of the mascot rooster Pete. A committee on by-laws was appointed, consisting of Taber, McClain, Wilkins, and Wilcox. The club will have a run tonight to the Piedmont baths.

GAZETTELETS.

Don't borrow the GAZETTE, subscribe for it, it is only 25 cents a month delivered by carriers.

Frank Frates of Poso Flaco, aged 58 years, and Francesca Prasa Frates, aged 35 years, have taken out a marriage license.

Casinzo Bantrow, aged 23 years, of Berkeley, and Marie Louise Rix, aged 22 years, of Oakland have taken out a license to be married.

Carl Muller of Oakland, 27 years and Louise Frederike Bondow of Berkeley, 21 years, have secured a license for the hymeneal knot.

THE Board of Prison Directors are going to make another effort to break up the saloon business located within one mile of San Quentin.

THE States of Minnesota, Wisconsin and Illinois have been visited with very severe storms which become cyclones. Heavy rains have done a great deal of damage to the crops in all of those States.

President Kellogg has gone to St. Helena where he will remain until the next meeting of the Board of Regents. The president said before he left that the Regents would undoubtedly not reduce the salaries of University instructors, as many feared would be done.

Hereafter the revenue cutters when in active service will fly the American flag in addition to that of the revenue cutter service. Other nations must treat them with the same respect as a man of war. The trouble in Bering sea brought this about.

It looks as if the old survey made by Col. Bridges for a railroad running from San Francisco to Santa Cruz along the coast shore is going to be used. His surveys reached as far as Denver. A company has been incorporated at San Francisco to build a road over this survey.

The cutting and trimming of the trees in front of the Kellogg school on Center street has been done, as per the request of the superintendent of streets, and makes the appearance of a man with long hair and beard after he has gone through the chair of a tonsorial artist. Anything trim and tasty always gets the admiration of the public.

TOWN OFFICIAL PAPER.

SATURDAY, JULY 20 1895

ABOUT STREET SPRINKLING.

In an editorial published in the GAZETTE last evening, reference was made to the efficacy of sprinkling the streets with salt water, and the necessity of purchasing a pumping plant etc. When we wrote the article our idea was that the plant and pipes could be purchased very cheap and that by the use of salt water the town would be saved a great deal of expense. We have not been alone in thinking that salt water would be an advantage to the town for some of the members of the Board of Trustees have been investigating the matter also. Trustee Martin has given it considerable thought and finds that it is altogether impracticable for Berkeley. He states that the plant and pipes and the laying of the same would cost not less than \$25,000, which would have to be raised by bonding the town. The interest upon these bonds would amount to about \$7500 per year besides the sinking fund which would have to be provided for and this is greatly in excess of what it costs the town now for sprinkling the streets, even after buying the water. There would also be the additional cost of an engine tank tender and the fuel.

Mr. Martin states that the town is limited to a bonded indebtedness of \$400,000 and of that \$90,000 is already bonded, and if waterworks are to be put in it would be far better to put in regular waterworks of fresh water whereby the whole town can be supplied with water for domestic purposes as well as for fire purposes and street sprinkling.

After learning the cost of putting in a salt water plant, we are inclined to believe as Mr. Martin does, that it would not be wise nor profitable to put in a system of pipes for the purpose of sprinkling the streets with salt water.

THE ELECTRIC LIGHTS.

Every one in Berkeley knows that the electric lights in Berkeley are very unevenly divided. Some portions of the town have a great many lights while other portions are in total darkness. Of course in a spirit of fairness this should be rectified, and that is what the present Board of Trustees propose to do. The Electric Light Committee is composed of Trustees Hoff and Martin. Both of these gentlemen are well posted upon electrical matters, and especially Mr. Martin, who has made a study of it.

This committee has visited every portion of Berkeley and made exact examinations in order that every section of the town may be lighted. They have formulated a plan whereby incandescent lights can be used to greater advantage than the arc lights and at the same time give a better service. It is their intention to remove all the mast lights in town and place them lower down and at greater distances, thereby giving better service than at present. The Electric Light Committee feel positive that although there is some opposition to their plans at the present time, especially the proposition to remove the lights from the masts, that by the time the committee have the changes made, the strongest opponent to their plans now will then endorse them.

MORE POWER.

The Electric Light bill has not been paid for last month and by the next meeting there will be another month due. The cause for this non-payment of the bills is that on several nights the lights did not burn. If this was the case, and we have no doubt but what it was, the Company should make a reduction for they have no right to receive payment for something they do not furnish. Another reason given for

the non-payment of the bills is that the lights are not up to contract; that they are not 2000 candle power as required, in fact that they are not more than 1100 candle power at the greatest.

There has been a wrangle over the electric light bills for the past two years and of course while the company was under the management of J. George Gardner, the people were very suspicious and one and all kept a close watch upon the lights, but these complaints came to naught. As soon as the company removed Mr. Gardner, it was thought that everything would be smooth and agreeable, but the same hitch comes up right along.

The Berkeley Electric Light Company is composed of gentlemen, all residents and citizens of Berkeley. They are all honorable gentlemen and we are sure have no desire to take any advantage of the town nor of the citizens. It unfortunately was in the hands of a man whom the people did not like, for a time, and now its manager is a young man, who is probably a good business man and bookkeeper, but he knows nothing practically about electric lighting and has to take the word of his employees for what goes on, consequently he does not know whether 2000 or 1000 candle power is being furnished.

At the meeting of the Board of Trustees last night it developed that it was impossible for the Electric Light company to furnish 2000 candle power lights, and furthermore that it was not being furnished in any other city. It was stated that there was a commercial standard of electric lights which were called 2000 candle power when in fact they are not more than 800 or 1100, and that the Berkeley lights were on this standard.

If this is the case and these lights are recognized as standard lights there should be no more complaint on that score, and hereafter all that is necessary is for the manager of the company to put in his bill for the lights that were actually burning and then there will be no further trouble.

It has been developed in Berkeley whenever a sewer has burst that the main reason for it was because it was filled with rags, broken lamp chimneys, and other rubbish that was never intended to be carried off in a sewer. The Health Officer and the Sanitary Inspector, together with the Town Attorney, have drawn up an ordinance that will prevent this state of affairs in the future. All closets, sinks etc, hereafter will have to have a trap which will prevent any more such abuse of the sewers. The ordinance in fact should be read by every householder in town. It is lengthy but very interesting and will appear in these columns on Tuesday next.

Wanted—Young girl 14 or 15 years of age to take care of child, \$8.00 a month. Inquire at Fonzo's Cafe. 65

TO SOLVE A PROBLEM.

BALTIMORE WOMEN AND THE OLD SERVANT GIRL QUESTION.

A Fund to Be Raised For the Establishment of a School—Tuition to Be Free and Course of Study Very Thorough—A Boon For Housewives.

While women are anxious to do something out of the ordinary that will be of substantial benefit to the community in which they live, the experiment being tried by a number of women in Baltimore should prove of interest. The object of the work is the practical solution of the servant girl question, and if the Baltimore plan succeeds it will emancipate women from this greatest perplexity of housekeeping.

The plan is to induce 1,000 ladies to subscribe \$2 a year for three years to a fund to be used in establishing a school for the training of girls for domestic service. The tuition is free to all girls, and the course of study embraces cooking, serving, general housework, chamberwork, sewing, mending and reading and writing—in fact, everything necessary for an accomplished domestic to know. The school would also be a high grade intelligence office for the ladies who contribute to its support.

While this school would be of great benefit to the ladies themselves, it would be also highly beneficial to the girls. It is undoubtedly true that the drudgery of labor decreases just in proportion to the skill and intelligence put into it, and these educated servants would find that their competence would be no small consideration in the matter of their contentment, while it would be still more important to them in increasing their compensation.

Not the least of the advantages resulting from such a school would be the establishment of something like a uniform system in the kitchen. Now it takes a reasonably intelligent girl a month to forget the ways of the last mistress and learn those of the new. Every woman who keeps house is fully aware of the severe nervous strain that is involved in a change of servants, but with a fair supply of well trained girls to meet the demand this worry would be avoided, to the great advantage of domestic tranquility and comfort.

While the "new woman" does not take kindly to advice it may be urged that, as a branch of home missionary work, the establishment of schools for the training of house servants might be productive of much domestic happiness. —Chicago Record.

ROMANCE AND REUNION.

After Many Years of Separation This Husband Returned With Wealth.

A romance has developed at Niagara Falls in the reunion and remarriage of a couple who the gold fever separated. In 1883 Regina Demond, a handsome girl of 20, was wedded to Edward L. Doyle, a man of 40, a college graduate and a seeker of wealth.

Within six months after his marriage Doyle left his bride to prospect for gold in Colorado. To the bride a daughter was born, and after several years' waiting she thought she had been deserted and secured a divorce. She settled in Buffalo with her little girl and was living quietly there, when one day recently a stranger with a gray beard, tall and straight, knocked at her door. She looked and gave a cry of recognition. It was the husband, who had come back. He was almost ashamed to come to her, but he did, and placed at her feet the wealth he had accumulated. Explanations followed, and both resolved to be remarried. They went to the Falls and were reunited by the Rev. R. C. Browley at the Methodist parsonage last week. —New York Recorder.

Sam Jones on Men.

Here is a passage from a recent gospel discourse by Sam Jones: "We have more millionaires than men nowadays. God never made but one man and one woman, and they're scarcer now than they was then. Ever see them little, little fellows—fellows that can see through a keyhole with both eyes, and they ain't cross eyed, nuther? Why, some of them little fellows can have a fly perch on their nose and paw them in one eye and kick them in the other. Little fellows! My, my, my, but there's lots of pieces of people goin' round! I'd rather be some kind of a dog myself than no kind of a man. I'd rather be a good 'possum dog than a no 'count white man."

His Buried Arm Hurt Him.

Peter King, a humberman of Grass Valley, recently met with a terrible accident whereby he lost one of his arms in a planing machine. The severed limb was buried in such a manner that when subsequently disinterred it was found that the hand and wrist were twisted. The strange feature of the affair is the fact that King suffered considerable pain until the buried member was dug up and straightened, when the cramped and strained feeling entirely vanished. —Grass Valley (Cal.) Tidings.

Another Good Roads Law.

Connecticut is the latest state to enact a good roads law. The act is a simple one. It provides for a commission of three members, to be appointed by the governor, whose duty shall be to oversee the work of macadamizing roads and assess the cost of the improvement in three equal parts on the town, the county and the state. The state's outlay is limited to \$75,000. This is a modest sum, but sufficient to permit a valuable experiment to be tried. —New York Tribune.

A Case In Point.

The peace-maker doesn't always get the worst of it. Look at the case of Hon. John W. Foster, for instance. —Washington Post.

This Year's Crop.

Harvard graduated 678 students this year and Yale 675.

STORIES OF THE DAY.

Finance or Nothing Was the Newboy's Motto In Selling Literature.

The news butcher came into the car, staggering under the weight of a huge stack of paper covered books.

"All the latest financial works," he shouted. "'Coin's Financial School,' 'Coin's Financial Fool,' 'Coin Answered,' 'Coin Annihilated,' 'Horace White on Coin,' 'Stanley Waterloo on Coin,' 'Stanley Wood's Answer to Coin,' 'Dollars to Doughnuts,' 'Sound Money Versus Coin,' 'Coin and Logic,' 'Money,' 'Coin, Corn and Coins,' 'Bulwer Lytton's 'Money,' 'The Prince and the Pauper,' 'Eli Perkins and Coin Dialogues,' 'Money Talks,' 'Fallacies of Coin,' 'The Baby Financier,' 'The A B C of Finance,' 'Coin's Financial Primer,' and—

"All the latest answers to Coin. Want one?"

"Have you got any of Bertha M. Clay's works?" asked a young lady on her way home from school.

"Nope."

"Laura Jean Libbey's?"

"Nope. Nothin but finance. People don't read nothin else. I got all the best answers to 'Coin.' Stanley Waterloo's is the best. Horace White's is no good. Horace ain't up. He may know how to get hold of the stuff, but 'Coin' can give him cards and spades talkin about it. You see, I've read 'em all. Some of 'em's rot. I don't sell that kind. It'd take a whole baggage car to carry 'em all, and I ain't got enough space. Want one?"

"All the best answers to 'Coin,' 25 and 50 cents. If you ain't up on finance, you ain't in it. Buy one and get in the push."

"Latest answers to 'Coin.' Yessir. Here you are, right here, sir—50 cents."

"All the best and latest works on finance!" —Atlanta Constitution.

Found a Rich Gold Mine by Accident.

One of the most remarkable accidental mining strikes in the history of this section was made a short time ago on the Payotte river, 74 miles from this city. Several weeks ago Nick Stienfeld and Walter Moore of the Louvre "grub staked" George Bell and Dick Fraser to go out on a prospecting tour. They skinned around for some time without striking anything.

One day Fraser went out hunting and chased a bear and a cub up a mountain side through heavy brush. The game escaped, and Fraser sat down to enjoy a brief siesta before returning to camp. He pushed the brush aside and was digging thoughtfully in the dirt with his fingers when he picked up a piece of rich float. He did not know what it was, but it was a nice specimen of something, and he put it in his pocket. He stuck his pick into the ground and encountered an obstruction in the shape of a lead.

Going to camp, he showed the piece of quartz to Bell, and further investigation showed the latter that it was worth looking into. A small quantity of rock was taken out and brought to Boise to be assayed. It went \$138 a ton gold.

At last accounts they had sunk on the ledge, which dips at an angle of 70 degrees, but a short distance. They had 3½ feet of ore and had not yet cut the foot wall. A seven inch streak assays over \$1,000 a ton gold, the remainder going \$12.80 in gold. —Boise City Statesman.

Shame on the Rooster.

The conduct of a hen which protected her brood of chickens from the dangers of rapid transit attracted the attention of passengers on car 180 of the City and Suburban Railway company yesterday.

The car was going down grade on Eastern avenue toward Highlandtown and was traveling at a lively speed. Just ahead at Luzerne street the motor-man saw the hen and her family in the middle of the track. A brave looking rooster was there, too, strutting about with pride and arrogance.

The motor-man, fearing that the chickens would get under the wheels of his car, made an effort to stop, but the speed was so great that he could do nothing more than check it by the time the group of chickens was reached. The rooster flapped his wings and indignantly flew away, leaving the hen and her young ones to look out for themselves.

The mother, scenting the danger to her little ones, squatted on the ground in the center of the track and raised her wings, under which the chickens took refuge. When the car had passed, the passengers who had witnessed the incident were delighted to see the hen and her brood unhurt. The car had passed right over her, but she had squatted close to the ground and in that way escaped injury to herself and the chicks. —Baltimore Sun.

Wanted—Ten Thousand Babies.

Secretary M. R. Levenson of the Anti-vaccination society of America has sent to the boards of health all over the country a circular containing the following proposal:

"That there be selected 10,000 children, in similar conditions of life, of the ages of, say, 8 months to 1 year, at present unvaccinated, the parents or other lawful guardians of 5,000 of whom shall be willing and of the other 5,000 unwilling that they should be vaccinated; that the first 5,000 shall then be vaccinated by health officers, the other 5,000 to continue unvaccinated; that the whole 10,000 be kept, so far as the parents will permit, under the observation of boards and of physicians to be selected by the society; that the vital statistics of these 10,000 children be then published yearly."

Mr. Levenson believes that the testimony so gathered will be conclusive as to the advantages and dangers of vaccination. —New York World.

The Same Sunday In Two Cities.

Yesterday it was impossible to get shaved in Buffalo, but dead easy to get drunk. In New York it was easy to get shaved, but impossible to get drunk. Strange that there should be such a difference between the two towns! —Buffalo Enquirer.

COST TO RUN A SHIP.

THE BIG ST. LOUIS REQUIRES \$80,000 FOR THE ROUND TRIP.

She Burns \$15,000 Worth of Coal—The Bill For Breakage Is No Small Affair. Salaries of Officers and Men Are Small, but Some of Them Get Large Fees.

The cost of running a big ocean greyhound to Europe and back reaches into the thousands. A transatlantic liner is really a floating hotel, and everything on board is conducted on the same scale of lavishness that is found in a fashionable Fifth Avenue hotel.

Clement A. Griscom, Jr., son of the president of the line controlling the St. Louis, agreed to give some figures to a World reporter covering the expense of her voyage to England and back. He figured for some time and then said that the expenses of the round trip of a steamer like the St. Louis average between \$60,000 and \$80,000, according to the season.

The voyage between the two ports takes a trifle more than seven days, making the daily cost of operating in the busy season something like \$5,500.

No single individual on the St. Louis gets a large salary. The captain heads the list, getting about \$5,000 a year. Captains on smaller passenger steamers only receive \$3,000 a year. The chief officer of a ship like the St. Louis gets \$1,500, and the bulk of the heavy work really falls on his shoulders. The second officer's pay ranges from \$900 to \$1,200, according to the size of the ship, while the third and fourth officers only get from \$600 to \$900. All of these men have to perform duties of a responsible kind, and as there are no bonuses attached to their work it can be seen that they are not overpaid.

The crew of the St. Louis numbers 410 men. Two hundred of these are in the engineer's department, and all of them are directly under the authority of the chief. The steward's department is the next largest, numbering 170 in all. The sailors, including the deck officers, number but 40.

The engineer's department is the most expensive on the ship, owing to the immense coal bills. The St. Louis burns more than 800 tons a day, or about 4,500 tons the round trip. This means an expenditure of \$15,000 alone. The salaries of the men, the engineering supplies, including the thousand and one things needed for the vast machinery of a great ship, will require an expenditure of \$5,000 every round trip. The chief engineer draws \$3,000 a year, and his immediate assistants receive \$1,500, \$1,200 and \$1,000 respectively. The stokers or firemen average about \$30 a month, and the furnaces of the St. Louis require 180 of them working in different shifts.

The purser, who is a most important person on board, does not get much in the way of salary, as the company in fixing his pay figured on the large bonuses he receives for changing money and performing the little services which the wealthy traveler does not hesitate to pay for liberally. His salary is only \$1,000 a year, but he makes another \$2,000 in fees and sometimes considerably more.

The ship's surgeon only receives \$900 a year for the same reason. He is brought in contact with numerous real and fancied invalids of the wealthy class, and although no one is compelled to see him few fail to do so, and a big, popular ship like the St. Louis is worth to him at least \$8,000 to \$4,000 a year. The steward's department is one of the costliest on the ship. The provisions for a round trip cost in the neighborhood of \$12,000, and the salaries of the steward's men amount to \$3,000 more. The stewards are the least paid of any on the ship, for the reason that in the fees of the passengers they collect a considerable sum annually. All the pay they get is \$30 a month, but they take in \$40 a month in tips. The seacock man and woman are always willing to give their last cent for some little service.

The chief steward receives \$1,500 a year and also comes in for his share of the tips, as it is within his power to place many delicacies in the way of the liberal tourist.

The chief cook is a great man on the ship, almost as great as the captain, and in all makes \$3,000 a year out of his job. The breakage and wear and tear on the ship and its furniture are very heavy, requiring an expenditure in incidentals of about \$5,000 each round trip. There are countless things to be replaced, and a comparatively little thing like the washing of the ship's linen means an expenditure big enough to support a man for a year in the lap of luxury.

Here are some odd facts about the St. Louis: There are fully 1,000 tons of piping of various kinds in the ship. The condensers will pump up at least 50,000,000 gallons of cool water a day. The furnaces will consume no less than 7,500,000 cubic feet of air an hour. The boiler tubes, if placed in a straight line, would stretch nearly 10 miles and the condenser tubes more than 25 miles. The total number of separate pieces of steel in the main structure of the ship is not less than 40,000, and the total number of cubic feet of timber used in the construction is more than 100,000. The total number of rivets is not far from 1,350,000.—New York World.

A Suspicious Title.
In Chicago—"The sounder addressed a letter to me 'John Smith, B. A.," exclaimed the city father wrathfully.

"What of it?"
"What of it? What does 'B. A.' stand for?"

"Bachelor of arts. He thought you were a college graduate."
"Oh, that's it, is it? I thought it meant 'boodle alderman.'"—Chicago Times-Herald.

It Seems She Did.
"I think I'll lay low," said the hen. And shortly afterward there was a loud clucking heard in Farmer Billy's cellar.—Chicago Tribune.

Hans Rasmussen's wife, who lives on San Pablo avenue between Durant street and Dwight way, has presented to her husband a girl baby.

A lemon grower in Tulare county says that if he can get five cents a dozen for his crop it will net him \$500 an acre.

The holy eucharist, baptism and rights of confirmation will be celebrated at the Church of the Good Shepherd by Bishop Nichols. Services commence at 11 o'clock a. m.

Miss C. Woodley who has been visiting friends in Yolo county returned home yesterday.

The sacrament of the Lord's Supper will be observed in the Presbyterian Church, West Berkeley, tomorrow at the close of the hour for morning worship. The Rev. H. H. Dobbins will assist in the service.

The notice in the Advocate of last evening that the Epworth League of West Berkeley would give and entertainment at Sistrina Hall last evening was misleading and incorrect, as was the notice in this morning's Chronicle, stating that the entertainment had been held and was a grand success. The entertainment will not take place until next Friday evening July 26th.

Strayed or stolen—From Manue Rodger's place, Eighth street, between Dwight and Channing way, a black and white heifer on July 4th. Anyone giving information to her whereabouts will be rewarded. 68

Dwight Way—Graded, Curbed and Macadamized.

Notice of Street Work.

NOTICE IS HEREBY GIVEN THAT ON the 8th day of June, A. D. 1895 the Board of Trustees of the Town of Berkeley passed its Resolution of Intention, number 25-A, to order the following street work to be done, viz:

That Dwight Way in said town from the easterly line of Warring street to the easterly line of Prospect street be graded, curbed with wood and macadamized to the official line and grade, and that a wooden culvert in line with the gutters be constructed across Warring street on the northerly side of Dwight Way, and that a wooden culvert with crosswalk be constructed across Prospect street on the northerly side of Dwight Way. The gutters shall be four feet wide laid on a bed of screenings or gravel five inches in thickness and grouted with a cement grouting composed of one part best Portland cement to two parts clean, sharp sand. All work shall be done in accordance with the general specifications adopted June 25th, 1894 except as herein specified.

For further particulars reference is hereby made to said Resolution on file in the office of the Town Clerk.

Notice of Street Work

NOTICE IS HEREBY GIVEN THAT ON the 5th day of July, A. D. 1895, the Board of Trustees of the Town of Berkeley passed its Resolution of Intention, number 27-A, to order the following street work to be done, viz:

That Bowditch street in said town from the easterly line of Channing way southerly to a point 30 feet southerly of the northerly line of Haste street, and that Haste street from the center line of Bowditch street southerly along a line 20 feet southerly of the northerly line of Haste street to a point 50 feet west of the west line of College avenue, be sewered to the official line and grade with a six-inch vitrified ironstone pipe sewer with one manhole at the intersection of Haste street and Bowditch street and one lampole at the easterly terminus of said work, and with four-inch Y branches, one for each lot or subdivision along the line of said work.

For further particulars reference is hereby made to said Resolution on file in the office of the Town Clerk.

GUY H. CHICK,
Superintendent of Streets of the Town of Berkeley, Cal., July 12th, 1895.

July 12 61

Wheeler Street—Sidewalk.

Notice of Street Work

NOTICE IS HEREBY GIVEN THAT ON the 5th day of July, A. D. 1895, the Board of Trustees of the Town of Berkeley passed its Resolution of Intention, number 28-A, to order the following street work to be done, viz:

That the easterly side of Wheeler street in said town from the southerly sidewalk line of Prince street to the southerly line of Emerson street be sidewalked with a four foot wooden sidewalk, where not already laid and that crosswalks be constructed across Wheeler street on the northerly and southerly sides of Essex street and across Prince street on the easterly side of Wheeler street.

For further particulars reference is hereby made to said Resolution on file in the office of the Town Clerk.
